### **Comments from Parents**

'I appreciate that we have a new forum for discussing the school and learn about it [in the new 'Meet the Head of School Meetings]. It really helped for me to understand things and situations when I heard the explanations directly from you. I appreciated all the insights and also thank you for being open-minded and said that you'd look into some the suggestions from parents."

'I have nothing but gratitude for you, MIS staff. You laughed with us in the good times and reached out to us in the hard times. The things you taught my daughter will never fade away and will be a treasure for her."

### Conclusion

- The overall tone of the survey responses was very positive, with a similar level of positive results to last school year's survey.
- There are areas that as our Leadership Group and Senior Management Team should look into deeper to determine what the survey results indicate for school improvement.
- As each item is linked with the CIS Accreditation Standards, this will help us with our continuous school improvement process and CIS Self-Study as part of our school's reaccreditation.
